

# 第九屆香港綠色學校獎

## 9th Hong Kong Green School Award

### 鳳溪創新小學

#### Fung Kai Innovative School

- 學生學習並參與有機種植，而且在開放日時為參觀者介紹植物。  
Students learned and participated in organic farming, and introduced plants to visitors on Open Day.
- 學校逐漸改用T5光管，使用隔熱膜減低課室的溫度，以減少使用空調。  
T5 fluorescent tubes were used in phases. Heat-insulating films were used to reduce temperature in classrooms and to reduce use of air conditioners.
- 學校舉辦了以低碳為主題的環保日，學生當日不需要上課，而學校藉此機會向他們傳遞大量的低碳資訊。  
The Environmental Day with the theme of low carbon was organized. There was no class for students and the school took this opportunity to spread low carbon information to students.
